

St Peter's Nursery Unit

WELCOME BACK!

Our Themes

Our themes for April are growing, farm/baby animals, we will be learning about growth and new life.

**April
2021**

Growing

We will be preparing the vegetable and herb gardens for our Spring planting activities. The children will be planting cress or mustard seeds as these grow quickly! We will also be planting pansies and primroses and fresh herbs such as parsley, thyme and lavender. In the raised beds, we will be planting young strawberry plants!

We will know where they came from and how to look after them and maybe we will get them home! We will be talking about the different parts of a plant - root, stem, flower, petal, leaf. Watercress grows really quickly and can be washed and added to sandwiches. Yum!

Farm/baby animal

We will be learning about the different animals which live on the farm and in the zoo. The children will learn the names of the various animals and their young. They will also learn what foods they eat and which ones belong in the zoo and on the farm.

Vets

The role play is set up this month as a veterinary clinic. The boys and girls have plenty of opportunity to care for the animals to groom them and shampoo them and attend to them.

We need your help!

If you have any old hats, any shape, size or colour, that you no longer need, we will be more than happy to take them and we are looking for any old tea pots, gardening tools, toy tools for our builders yard...
Thank you.

Please keep sending in your child's coats as it's still cold outside.

Songs and Rhymes

Little BO-Peep

I dig my garden

Old MacDonald

Higgledy piggledy

Five brown eggs

Bingo
